# ALUMINIUM FRENCH DOORS

Aluminium French doors create a visually stunning addition to your home and can add significant value to the property.

The Aluminium French Door is designed using the ALUNA system, to seamlessly match our bifold door system, as it shares the same components. Class-leading design features set the aluminium French door apart from any competition, with excellent thermal performance and slim profile sections being key to their sleek design.

Engineering-grade hardware allows for silky smooth opening and closing operation, without the premium price.

Secure to PAS24:2022 certification, the French doors also exceed a new build regulations with U-values as low as 1.4 W/m<sup>2</sup>k.

## Why choose Aluminium?

Aluminium is extremely durable and more hard-wearing than other materials on the market. You'll be able to enjoy your aluminium windows for decades to come due to their high resistance to the elements.

Aluminium windows are among the best insulated on the market, thanks to advanced thermal break technology, which prevents cold transfer. They require very little maintenance to ensure optimal performance and a fresh aesthetic.

## Colours

Our doors are available in three standard colours, plus two dual colour options. For projects requiring bespoke coloured doors, any RAL colour can be available upon request.

White  
RAL9016

Anthracite Grey  
RAL7016

Black  
RAL9005

Grey Out/  
White In

Black Out/  
White In

Bespoke RAL  
colour

## Weather Resistance

Excellent weather sealing is achieved using specially designed **perimeter seals**, with the option of **weather piles** for lower thresholds. Weather tightness is tested to British standards.

## Low Maintenance

Our **low-maintenance** aluminium doors are strong, durable and highly **corrosion-resistant**. Unlike timber, they don't need painting or staining to keep them **weatherproof**, and they won't rust or corrode, rot, peel or flake.

## Thermal Efficiency

Our French doors can achieve U-values as low as **1.4 W/m<sup>2</sup>K**, when combined with highly energy efficient glass. Keeping your home warm and comfortable all year round.

## Maximum Vision

The ALUNA System gives one of the largest sash sizes available, with up to **1200mm width and 3000mm height** per pane. Paired with super-slim sightlines from just **107mm**, you'll get the best uninterrupted views.

Our French doors can be finished in several glazing options to create a style to suit any property, including:

- Double glazed
- Triple glazed
- Integral blinds
- Heritage look astragal bars
- Solid panel inserts

## PRE-GASKETED EASY-TO-USE CLIP-IN BEAD

- Quicker installations- simply clicks in, saving lots of time!
- Easy-to-use & to remove
- Provides slimmer sightlines & better aesthetics
- Pre-gasketed design
